**Fires Reported in FireRMS page 1 of 2**

August 28, 2014, 3:55 p.m. – EL Engine 11 was dispatched to Whitehills Drive for a tree smoking and hot to touch. Engine 11 went en route non-emergency and arrived to find the resident stating a tree in the wood lot was smoking and smoldering. Firefighters had initially extinguished this tree 2 days prior after a lightning strike. Engine 11 crew overhauled the tree and extinguished the residual smoldering debris. The resident was advised to keep an eye out for any additional flame or issues.

September 1, 2014, 5:29 p.m. – EL Engine 11 assisted MTFD with manpower on Dobie Circle for a possible fire in the upstairs bathroom. Upon arrival there was no fire but there had been one in the ceiling fan which had been extinguished by the residents with a fire extinguisher. EL Engine 11 crew checked the room and attic for extension of fire with a TIC and removal of insulation. MTFD Battalion assigned command to EL Engine 11 and then left the scene. Firefighters monitored the area and advised residents that the breaker to bathroom was turned off. No smoke or fire so Engine 11 cleared and command terminated.

September 1, 2014, 10:44 p.m. – ELFD was dispatched to above location for a possible car fire. Upon arrival the owner of the car stated they smelled a hot electrical smell in the car. Upon investigation firefighters found aftermarket stereo equipment wiring in the trunk that had got hot and burned a small amount of carpet in the trunk area. No fire or smoke and firefighters disconnected the power supply from the battery and advised the occupant to have the wiring repaired.

**No Training Reported in FireRMS**

## Types of EMS Calls page 2 of 2

Abdominal & waist pain = 5  
Altered LOC/mental status = 4  
Ankle/knee injury/pain = 3  
Arm/hand pain = 3
