**Fires Reported in FireRMS page 1 of 2**

February 1, 2015, 1:21 a.m. – ELFD was called to Akers Rd. for a fire alarm activation. T-12 responded, arrived, established command and investigated. They met with the resident assistant in the lobby who said that it was burnt popcorn and that they had reset the alarm. We advised not to reset the alarm if it ever goes off again and to wait for the fire department to get there first. Fire department personnel went to the room to confirm and found MSU PD outside the door with another person knocking on the door trying to gain entry. Firefighters could smell the burnt popcorn and looked under the door and could see the room was clear of smoke. Personnel continued pounding on the door until a master key was found. Firefighters made entry and found the popcorn in the bathroom sink and then found the resident in their bed. After confirming they were ok and sleeping, they were questioned about the incident. Information was gathered the incident was turned over to MSU PD. The master key was returned and terminated command.

February 1, 2015, 3:49 p.m. – Dispatched to the parking lot in front of Rather Hall for a car smoking from the engine area. Upon arrival found one car with heavy flames and smoke coming from the engine area and a second car as an exposure problem. The fire was controlled with a 1 ¾” hose line and forcible entry tools. The MSU fire inspector was contacted and advised of the situation. They advised they would not be responding to the scene. ELFD called the EL Fire Investigator who was also advised of the situation. Vehicle information was gathered and then fire units cleared.

## **Fires Reported in FireRMS page 2 of 2**

February 1, 2015 8:57 p.m. - Called for an assist to MTFD for a structure fire Jolly Rd. T-12, M-11 and B-11, responded and made contact with Jolly Rd. command who ask that T-12 be set up and raise the ladder for defensive operations. The roof was fully involved and already starting to collapse in on our arrival. T-12 was not able to function and had to be removed and cleared from the scene. M-11 and B-11 were asked to monitor defensive operations with several crews rotating in and out from MTFD, WFD and MFD along EL M-11. After some time and with a large amount of fire knocked down, command ordered EL M-11 to rehab and then cleared them from the scene. EL B-11 stayed as the C-side supervisor. Eventually had MTFD and Mason firefighters cut the B-C corner of the structure leaving only a pile of rubble. Firefighters were then able to get into the area and start overhaul without worrying about any collapse hazards. They were also able to get the majority of the fire out with some burning still under the collapsed roof in the structure so MTFD command ordered a backhoe.

February 4, 2015, 9:14 a.m. – Dispatched to a car fire on Shaw Lane and arrived to find MSU Police on the scene with the vehicle. They had extinguished the fire in the front driver’s side headlight area with a dry chemical fire extinguisher. The fire was out on arrival and EL T-12 crew opened the hood and checked for extension. The owner was not on scene so MSU Police would contact them. The vehicle may still be drivable. No fluids leaking or other issues so T-12 cleared.

## **Training Reported in FireRMS**

February 3, 4 and 5, 2015, a.m. and p.m. classes - Water Rescue – The morning classes were a lecture on ice water rescue. Information was given about how ice is formed, working time, active victims, and rescue scenarios and equipment. The afternoon classes were going to the pond at MSU FCU on West Rd. to perform actual ice rescue drills.

## **Types of EMS Calls**

|                                     |                                 |
|-------------------------------------|---------------------------------|
| Abdominal pain = 1                  | Headache = 1                    |
| Abnormal lab values = 1             | High temperature = 1            |
| Abrasion to forehead = 1            | Hyperglycemia = 1               |
| Ankle fracture = 1                  | Hypertension = 1                |
| Assist LFD & called off Enroute = 1 | Hypothermia = 1                 |
| Assist patient downstairs = 1       | Knee pain = 1                   |
| Back pain = 2                       | Laceration = 3                  |
| Burn = 1                            | Lethargy = 1                    |
| Chest pain/DIB = 8                  | Marijuana ingestion/anxiety = 1 |
| Citizen assist = 1                  | MVA = 2                         |
| Disoriented = 1                     | Multiple falls = 1              |
| Dizziness = 1                       | Muscle pain = 1                 |
| Drowsiness = 1                      | No complaint = 1                |
