Fires Reported in FireRMS

February 9, 2015, 12:00 a.m. - East Lansing Fire was dispatched to a stove fire on Albert Ave. Engine 11 arrived at a three story ordinary construction building with nothing visible. The occupant stated that they were pre-heating the stove when they saw flames in the same. They used an ABC extinguisher to put the fire out. The Engine crew entered the apartment and found no fire, but some smoke and ABC powder. Ventilation was called for and the Engine crew used a Positive Pressure Fan to vent the apartment and building. They contacted the on-duty EL Fire Investigator who stated that he would follow up in the morning. The Engine then cleared the scene.

February 12, 2015, 1:24 p.m. – ELFD T-11 was dispatched to Park Lane for a fire in the oven with the occupant reporting the fire was out. M-11 and T-11 responded with M-11 arriving and giving report that nothing was showing. T-11 crew investigated to find the occupant using the self-cleaning option on the electric oven. The oven had flames within from debris. However, no flames or smoke damage reached the outside of the oven. T-11 unplugged the device and advised occupants to have it evaluated by an appliance technician. The occupant stated that the nearest smoke head was in the dining room and did not activate. T-11 and M-11 cleared the incident and returned to station #1.

No Training Reported in FireRMS
