Service Calls = 1

Good Intent = 5

Hazardous Conditions = 2

Fires Reported in FireRMS page 1 of 2

November 4, 2015, 5:55 a.m. - Called with a full response for a possible structure fire on Glenmoor Road. Battalion 11 responded, arrived, established command and investigated to find that there was smoke coming from the second floor roof line. Truck 12 arrived and instructed to start fire attack while Truck 11 was to perform ventilation on arrival and mill assist with water supply. Medic 12 set up for RIT, Truck 12 reported that the fire was thought to be knocked down, but upon further investigation had found that it had extended to the attic and void space in the roof. Glenmoor command called for an engine from LFD and MTFD and then another Truck from LFD. LFD E-48 and MTFD Engine 91 arrived and they were assigned to meet up with Truck 12. Truck 11 was assigned vent group and then assigned Medic 11 to vent group to assist. Truck 11 ventilated but due to several isolated void spaces in the attic area the fire was traveling and a trench cut had to be done to stop the fire from traveling. LFD T-41 was assigned to utilities and secondary search.

November 4, 2015, 6:40 a.m. – Dispatched to the scene of a vehicle fire on Wembley Way. Advised that the fire was out and mutual aid was on the scene. The EL Fire Inspector arrived to find Lansing Township Fire Department on the scene and cleaning up after extinguishing a car fire. Their Captain reported it was a late model sedan that was on fire upon and upon their arrival they forced entry to the cabin, under the hood and used tank water to extinguish the fire. They also reported no suspicion of foul play. The EL Fire Inspector interviewed the car owner, examined and photographed the car and then cleared the scene.

November 4, 2015, 1:19 p.m. - Called to an oven fire on John R. Upon arrival ELPD was on the scene reporting the fire was out. In the house firefighters found a lite haze of smoke. The resident stated that oil from a cookie sheet landed on the bottom of the oven and started burning. The fire was contained to the oven box with the door shut. No damage noted. Advised the resident to clean the oven before using it again. Fire personnel used positive pressure ventilation to clear the smoke from the house and then cleared the scene.

Training Reported in FireRMS continued page 2 of 2

November 5, 2015, 1:30-4:30 p.m. – Confined Space Rescue - Performed a confined space simulation. Six on duty ELFD personnel and two Delhi personnel attended this training and performed a rescue of two live victims from a space below grade.
