False Calls = 19

Fires Reported in FireRMS

March 19, 2016, 12:58 p.m. - Called for a fire alarm on Wilson Road. Arrived and the occupant stated that they had burnt food in the microwave. There was smoke in the hallway but no fire. Firefighters vented the floor with positive pressure ventilation and the alarm was reset to normal.

March 21, 2016, 12:03 p.m. - Called for mutual aid to Meridian Township Fire Department for a car fire on Harkson. T-11 responded, arrived, established command and investigated to find a car in the driveway and the hood was open with no fire present. The owner explained that they came out to start the vehicle and as they did the engine compartment burst into flames. They started to put water on it and then realized they shouldn't and finished extinguishing it with baking soda. MTFD arrived and we turned the scene over to them. T-11 cleared and returned to station 1.

March 21, 2016, 12:42 p.m. - ELFD was dispatched to Red Cedar and Wilson for a trash can fire. T-12 responded emergency and arrived to find that the fire had been extinguished by workers at the Engineering Building. The plastic lid had melted and the can liner and lid were going to be replaced by MSU Grounds. MSU PD arrived on the scene to investigate and T-12 cleared.

Training Reported in FireRMS

March 22, 2016, 1:30-3:30 p.m. – Promotional Exams – On duty fire station one personnel reviewed test questions, looking up information in the book, discussing concepts and looking over the SOG's.
