Fires = 1 False Calls = 16

Fires Reported in FireRMS

February 21, 2017, 9:14 p.m. - Dispatched to a possible car fire at Fee and Wilson Road. Upon arrival MSU PD stated they were driving the car and something started smoking under the hood in the engine compartment. They found an oil rag on fire and extinguished it with a dry chemical fire extinguisher prior to the fire department arriving. EL T-12 removed the oil rag from the engine compartment, wet down the area with a water can and then cleared.

Training Reported in FireRMS

February 21, 2017, 1:30-2:00 p.m. – Special Considerations – On duty personnel had a presentation on a new Ambulance Child Restraint Device. This included a video demonstration and practice installing the device on the cot.

February 21, 2017 2-3 p.m. – Hose Handling Fundamentals – On duty personnel practiced deployment and reloading of the triple layer 1-3/4” cross lay hose on Truck 11.

February 23, 2017, 9-11 a.m. – Respirator Fit Test – On duty personnel had their breathing masks tested.

February 23, 2017, 1:30-2:30 p.m. – Special Considerations – On duty personnel had pediatric assessment, car seat immobilization and patient handling training which included a lecture, practical of the new ACR and pediatric securing device.
