Fires Reported in FireRMS

August 13, 2017, 3:50 AM-Requested by Dewitt Twp Fire for a house fire. Requested an engine for manpower and air trailer. B11 went on run also. Hooked up air trailer to C52 and M11 crew went out of service and drove air trailer. ELFD units arrived on West side of scene and called command on TRI TAC 1, per Metro dispatch. Command cleared air trailer and crew returned to station 1 and M11 went back in service. Command had us report to East side of scene. Had a house fire that had been controlled. Now there was a natural gas fed fire coming from the meter. Command was controlling fire with hand line in the front yard and had another line inside the house on the opposite side of the gas meter fire. T11 reported to accountability and was assigned to on deck. Command requested I perform a 360 and report back to him. T11 assigned to front yard hand line. When T11 was relieved, Command cleared all ELFD units.
