### Fires Reported in FireRMS

**January 24, 2018, 1:21 PM-** T-12 was dispatched to arcing wire in cooler at Sparty's convenient store. T-12 atf large 6 story dorm with nothing showing. T-12 found employee's at Sparty's store reporting that a exterior wire on a drink cooler had sparked and flamed up. Upon arrival T-12 noted nothing unusual other then some wires missing their protective cable. I was advised by the manager that the cooler had been worked on by IPF on Friday or Monday. Those same wires were serviced. The cooler seemd to be working correctly when today the wires were noted to be arcing and then a large flash of flame exposed itself. T-12 awaited IPF and referred maintenance to them. No fire, smoke, or arcing were noted throughout the call and the cooler still remained powered. T-12 unable to locate power shut off. T-12 cleared and returned to Station #2. Smoke and flames not great enough to cause fire alarms sytem to operate. System seems to be in good working order.

**January 26, 2018, 11:21 AM-** Responded for brush fire beside roadway. Initial dispatch was north bound US-127 S of Kalamazoo street. Upon arrival in that area were unable to find any fire. Dispatch had another call stating that the fire was actually near Forest Road. Upon arrival there found a small grass fire that we were able to contain with 500 gal of water. There was a bystander with a disabled car who stated that she thinks the fire was started due to backfire. The vehicle would not run and she stated that her father was en route to assist her. The fire was extinguished without incident. Michigan State Police was on scene for traffic control.

### Training Reported in FireRMS

**January 23, 2018, 2 Hours-** Performed maintenance, operation, and troubleshooting of extrication tools. Went over all cabinets on T11.

**January 25, 2018, 8 Hours-** ACLS/PALS day 1

**January 25, 2018, 2 Hours-** Chapter 2 and 3 of driver training course.

### Chief Complaints of EMS Call
