Fires Reported in FireRMS

February 22, 2018, 11:00 AM T-12 was dispatched to a fire alarm. T-12 found large 4 story with nothing showing. T-12 found alarm panel showing apartment activated with multiple heads. Some occupants evacuated. T-12 accessed apartment with MSU staff to find light haze of smoke and the smell of burned food. T-12 advised MSU to reset fire alarm panel. Occupant came back to room stating they had burned food in toaster and toaster caught on fire. T-12 gathered info. and cleared the scene, returning to Station #2.

February 24, 2018, 4:22 AM- Dispatched to a house fire, Metro 1 was assigned. Enroute, dispatch advised fire visible on East side of house, 2nd level. Dispatch asked if I wanted an Engine from Meridian, I said yes. Medic 11 already out, arrived on scene and gave size-up, 2 story house at end of cul-de-sac, nothing visible. Dispatch advised PD on scene, stating fire contained to bathroom area. On arrival, command assigning T-11 crew to investigate, and station 2 units to level one stage. I had M-11 crew team up with T-11 as they entered structure. E-11 interior reported small fire in bathroom door area with extension to attic space. Pre-connect was advanced to attic area. Water supply was complete, assigned T-12 to search and check for extension to attic and second level. MTFD command met with B-11, assigned MTFD E-91 to ladder "D" side of structure and check for extension. T-11 reported common attic and fire was knocked down, doing salvage and overhaul. Crews came out for bottle change, face to face done with T-11 Captain. Had dispatch contact on-call prevention and PAR was done for scene crews. MTFD units were released shortly after. T-11 LD hose was broke down and repacked. Station 2 units were cleared. B-11 cleared as well, command transferred to T-11.

Training Reported in FireRMS

February 27, 2018, .5 hours- AVI equipment donning and doffing exercise.
