**Fires Reported in FireRMS**

**May 3, 2018, 11:16 AM-** T-12 was dispatched to possible structure fire in parking garage. T-12 advised incoming T-11 to take Alpha side and T-12 would take Charlie side upon arrival. T-11 arrived with nothing showing. T-12 at a 4 story parking structure with nothing showing and employees in rear of structure. I met with employee who directed us to a electrical plug in the 1st floor ramp of the parking structure. They stated that a passerby notified them that this plug was on fire. The fire was out upon our arrival and I found a burned/ melted outlet cover on the ground. Command was updated that nothing was on fire and that all units could Level 1 stage. T-12 directed M-12 to the 2nd floor of the parking structure to check for extension. Command was passed to T-12 and all other units cleared. T-12 remained until power was shut off to breaker by maintenance. No fire extension was noted. T-12 cleared the scene and terminated Command returning to Station #2. IPF maintenance notified to investigate and maintain the electrical unit.
