Good Intent Calls =305

False Calls =29

Fires Reported in FireRMS

September 3, 2018, 5:57 PM- Dispatched to structure fire. Truck-11 responding from Station-1. Updated by dispatch enroute that fire was out. Arrived on scene to find small, two-story residential with nothing visible from exterior. Occupants are standing on the porch. Occupants advise that they were cooking something in the oven and noticed a fire inside the oven and that it went out. Investigated the oven. No fire. There is evidence of burned grease on the oven bottom. Oven and all burners were turned off. Moved the Stove away from the wall and there were no signs of heat damage.

When inspecting the oven, it was also noted that the heating element was not attached properly to the back wall of the stove. Residents were advised not to use the stove until they contact their landlord to have it serviced.

September 3, 2018, 7:06 PM- Dispatched to a possible structure fire, with small explosion and one burn victim. Dispatch switched ELFD to TAC 1. Arrived to nothing visible, one patient in the West side parking area, ELPD staged east of structure. Found 2 story residential house. B11 had command. ELPD approached command to report small fire, reported by occupants, still burning in the kitchen and one patient in the driveway with significant burns. Directed T11 to fire suppression and M11 to patient care and assessment to patient in the driveway. Performed 360 and found smoke coming from the Bravo Charlie corner entry door, reported to inbound units. Advised T12 to park and report on deck. M12 went with T12. After investigation, T11 reported fire out and station 2 units can clear. T11 contacted on call fire prevention. Command called fire out and cleared station 2. Fire prevention will follow up tomorrow. Command transferred to T11. B11 cleared.

September 6, 2018, 10:57 PM- Called for unattended fire in fire pit behind 431 Abbot. Response time was long due to "normal traffic response and the fact that we had difficulty locating the fire because it had nearly burned out. We drove around the alley and did not find the fire immediately and had to search by foot. Small wood fire in portable un approved container. They had no burn permit. We extinguished the fire and advised them to contact the FM for further information on approved locations and containers.

September 9, 2018, 2:57 PM- T-12 was dispatched to a dumpster fire. T-12 atf no active fire at dumpster however, apartment employees at the site. T-12 investigated to find that some cardboard on the outside of the dumpster had caught fire possibly from a discarded cigarette butt. Apartment occupants put fire out with water. T-12 overhauled and added more water to burned area. No fire or charred items noted within dumpster itself. T-12 cleared the scene.
